

深圳河套 Shenzhen Hetao

河套深港科技创新合作区国际协同创新区北区项目建筑方案设计

Architectural Scheme Design of North Area (Master Planning & Section 2/5) of International Zone of The Shenzhen-Hong Kong Science and Technology Innovation Cooperation Zone

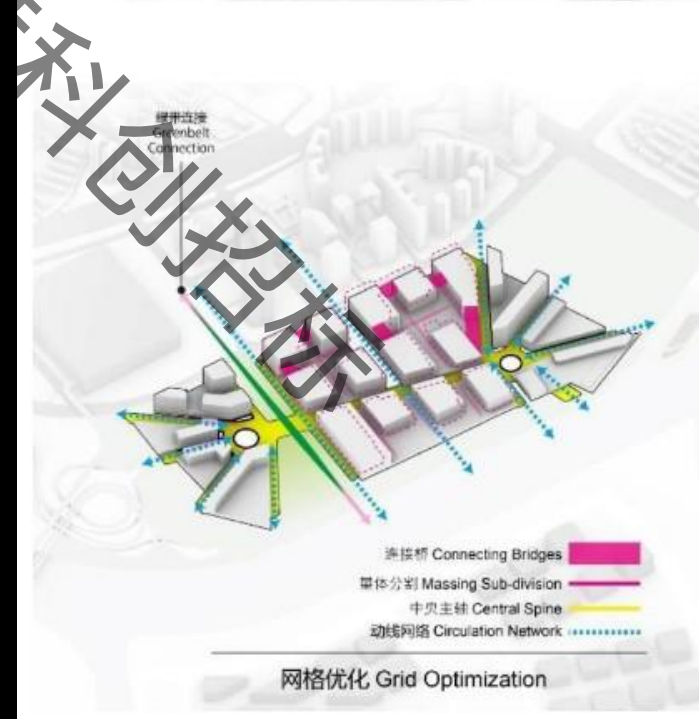

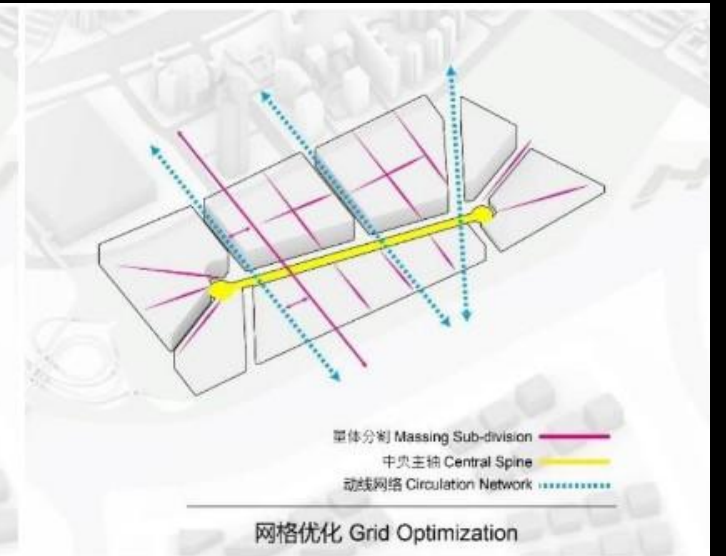

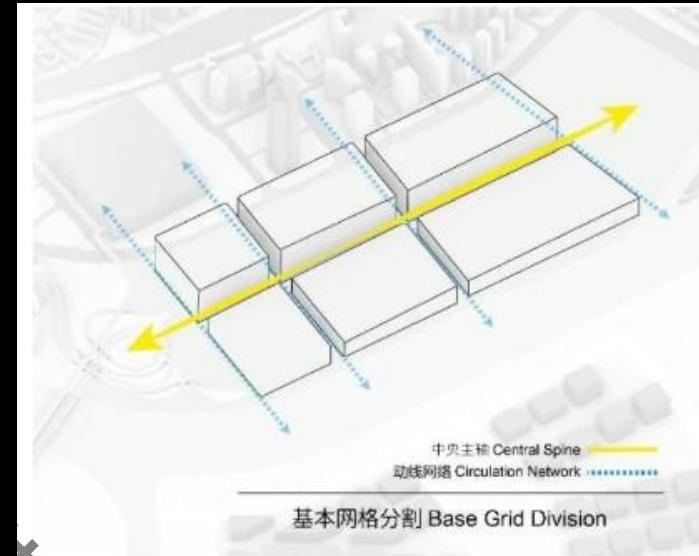

**“想象力是推动科学发现的燃料，
使我们能够设想新的可能，并突破可能的界限”**

“Imagination is the fuel that propels scientific discovery, allowing us to envision new possibilities and push the boundaries of what is possible.”

- Jonas Salk

Original Master Plan Scheme Overview

机器中的绿谷
Valley in the Machine

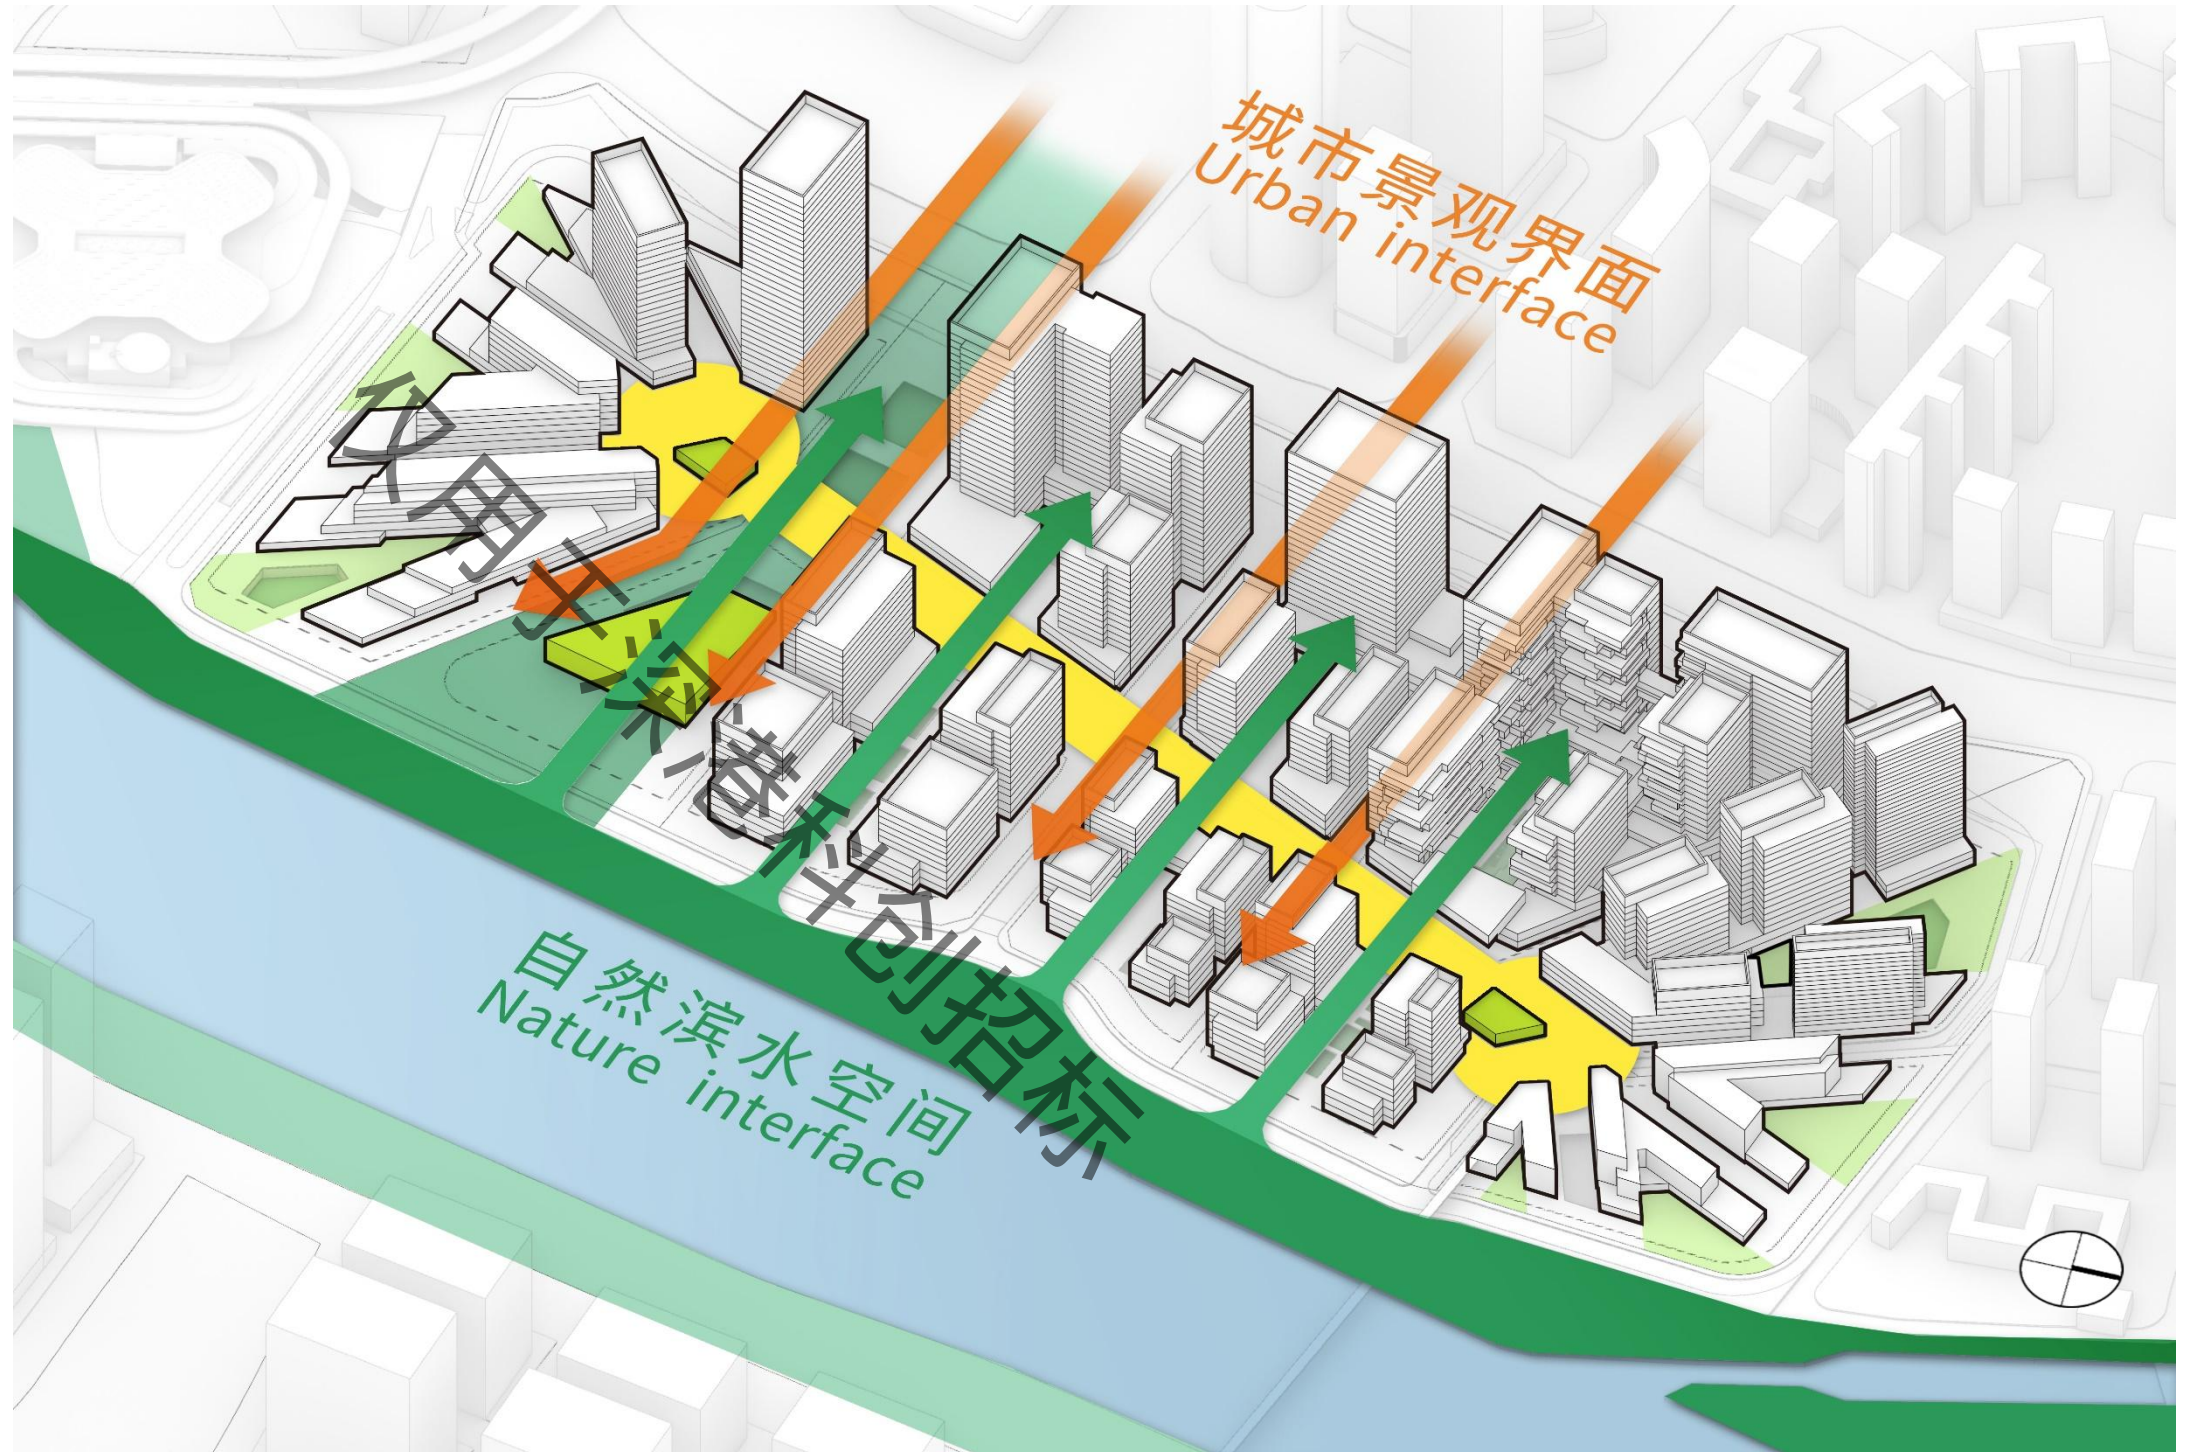

规划空间结构图 Spatial Structure

城市环境与自然景观的交织
结合场地两侧的城市特质与自然生态，城市路网与自然绿廊相叠加，形成一个有机、多层次的网络，最大程度地提高地块之间的联系。景观通道的设置旨在同时保持与河流生态和深圳城市景观的视觉连接。

Intertwining of the Urban and the Natural Environment

Combining the urban qualities and natural ecology on each side of the site, the grid-like road network of the city and the natural green corridors are superimposed to create an organic, multi-layered network that maximizes connections between parcels. View corridors are established to simultaneously maintain visual connections to both the river ecology and the Shenzhen cityscape.
